

TECH RIDER

Current as of 01/01/2017

A. BAND AND PERSONNEL

Vispera consist of five (5) musicians:

- One (1) main vocalist
- One (1) Lead Guitar/background vocals
- One (1) Rhythm Guitar/ Background vocals
- One (1) Bass Player
- One (1) Drummer

B. EQUIPMENT

1. Vispera requires a sound system (P.A.) of sufficient size for the venue. We like the stage setup as close to the audience as possible. The system shall be capable of producing a clean, undistorted sound and its components shall be in full working order, with no buzzes, hums, beeps, crackles, licks or other extraneous noises, and will be free from radio interference. Quality is much more important than quantity.
2. MIC STANDS: Minimum three (3) mic stands in good working order, no tape holding them together.
3. MICS: Engineer must supply all mics (Including mics for the guitar amplifiers, bass rig and drums) and please have some mics available for backup. Preferable but not required Shure SM58's, 57's, etc.
4. CABLES: Mic cables long enough to traverse throughout the stage from musician to stage box; a minimum of six (6) 120V AC outlets as marked, and all other necessary cables.
5. PERSONNEL: One stagehand; one audio tech familiar with sound system; one lighting operator are required. (This does not necessarily have to be three individuals -for instance, lighting op and stagehand can be the same person)
6. BACKLINE: Two (2) guitar amplifiers (half stack preferably), one (1) bass rig, one (1) drum set and P.A. (P.A. is required; the rest of the backline is optional. If full backline is provided, please send the show advance and specs info to visperaband@gmail.com at least 24 hours prior to the performance.)

WE WOULD LIKE TO THANK THE TECH CREW AND EVERYONE INVOLVED FOR EVERYTHING! WE REALLY APPRECIATE YOUR HARD WORK AND CONTRIBUTIONS TO THE VISPERA SHOW!
